

October 2017 Visit

I was in the office packing orders to be mailed out. My back was facing the Gate of Grace as I was working and as I turned around to get another box for packing, I saw a glowing light beginning to take form. "Well it looks like Angel time again," I thought to myself. In no time at all Michael was manifesting in the Gate. I watched and waited for him to be fully formed to see what he had to say.

***Michael... Has your kind seen enough? Have the vibrations of your world become so unbalanced that you are truly ready to change this?***

I can't believe all of the stuff that has happened in the last couple of months. It is almost as though the entire world has gone crazy. There are earthquakes and hurricanes, fires, a mass shooting and the political atmosphere is all about who has the power. So if you mean all of this, then yes, I am ready for a change. Can you explain this to me so I answer any questions from the masters? They asked that if we had the full attendance number you called for at the conference last year, would it have alleviated all of the craziness and destruction we have seen?

***Michael... No. The masters were given an opportunity last year to alter the course that the world was moving toward. You're kind was also told that if you chose to do nothing and not meet the number that would change the vibration, the world will just continue in direction that it is headed. I also said you would not like it. Once again, you need to realize that the masculine energy is out of balance with the feminine energy. For the past two years you've been working on bringing the Divine Masculine energy to balance it out. You did not have the numbers to raise the Divine vibrations and the existing energies became more unbalanced. I can tell you that because of the masters that gathered with you last year, the destruction was lessened. Your world and everything in it is seeking to regain a balance. In the struggle to regain balance, your world will start to produce energetic events. The frequencies the world produces to bring things back into balance may bring about national disasters. These may come to your world as violence that shows up in the form of storms, earthquakes, fires and violence against one another.***

I think you've done a good job on keeping this simple so I could understand what it was you're trying to tell me. I really get what you're saying about the imbalance in the energy between the masculine and feminine. I am also glad we did produce a Divine energy to keep things from being even worse. Given what has happened, I really don't see things getting better. Sure, we did slow down the destruction with the weather but that was just the summer months. I can see this winter bringing a whole new set of problems. I see the possibility of snow and ice storms covering cities with sub-zero temperatures lasting for months all along the northern hemisphere. It is also possible that come spring, there will be rainstorms all up and down the West Coast and with the fires that have been there it'll just be one mudslide after another. It's as though Mother Nature has become unbalanced

vibrationally and doing what is necessary to correct it. I also see the severity of weather and natural disasters growing around the world. Given what we are able to change with the lesser number we had last year, I don't see how that is going to help the world all that much. I see our only hope is to have 222 masters gather in Dallas come June. The problem is that we are pretty much screwed until then. So what do we do in the meantime, just suck it up and take it?

**Michael... You are wise to see that this not only affects your country but the entire world. In your speaking you have painted a grim picture of the future. I tell you truly, there is much you and the masters can do. The vibrations of your world are not set and they can be altered. You and the masters have the power to do this.**

So are you telling me there are things we can do before this coming June?

**Michael... There is much you and the masters can do.**

Well I'd be happy to hear it because I just don't want to see things continuing the way they are.

**Michael... There are three ways that the vibrations can be changed in order to alter the course. Yet all three things need to be done to alter the vibrations.**

**The first is something that many of you are already doing. The process for bringing in the Shekinah blessing is a very powerful beginning. When you do this Blessing process you are calling in the Divine Feminine energies. The vibrations you receive not only fill your household but they also move out to the world around you. The more Masters who participate in this, the more powerful the Divine Feminine energy becomes. This in turn helps to balance the energy between the masculine and feminine.**

**The next thing you can do at the turning of the year is the Novus Invicta. In the time of darkness, the Novus Invicta calls in the light which includes the light of Wisdom. When this happens the vibrations are raised once more. When you bring in the Shekinah Blessing the vibrations build each time the blessing is done. As the months pass the vibrations make way for the Novus Invicta to enter your world in a most powerful way. In the past this process was done so the energy could hold its own. Yet that time is done for holding its own, it must move ahead or fall further behind. Your world is at a tipping point and should you fail to stand with 222 masters this year it will take 444 the next year to right it.**

So what you're telling me is we need to have more people doing the Shekinah Blessing to raise the vibration before we even get to the end of the year. When we do the Novus Invicta process to bring in the light, we will have already raised the vibrations to make this the most powerful Novus process so far. I can see how large

numbers of Masters getting involved in the Shekinah Blessing process raise the vibrations. I can also see how this creates a powerful space for the Novus Invicta to occur. Now let's say we do this and what we have done does create that powerful vibrational frequency to end the year. Then what do we do to keep the vibrations rising? There has to be more to it than just the Shekinah home blessing process. My question is what can we do to raise them higher? Otherwise we are just holding our own again.

**Michael... There is much more that can be done yet you cannot do this alone. You must call on the masters to join you to continue raising the vibrations.**

It sounds like you have another process for us to do.

**Michael... Yes, there is something you and the masters can do now. I have told you about raising the vibrations in your world before you gather at the conference. You have been given two things the Masters can do to raise the vibrations and there is a third thing that can be done. You must understand the power the masters have on a vibrational level. As each master takes action to join you in the Grand Formation next year, the vibrations raise.**

I can see where you're going with this. What I hear you telling me is that each Master has a vibration of their own. As each master's vibration combines with another, it raises the vibration of the work we are doing. Given this, what I am hearing is that as each master registers for the conference, the vibration of the whole gets higher. With each registration that is made, it binds with the others and the vibration grows. When this happens it sets in motion the energy we start the conference with.

I think it would be great to start the conference with the vibration of 222 people rather than hoping to get to that number later. We need to move forward quickly with what needs to be done. I also see the vibration helping to balance out the energy of the world so it doesn't continue to spiral out of balance.

**Michael... This is so. I tell you truly, once you set this into motion you will begin to bring balance back to your world.**

Well I think I have a pretty good grasp on the ideas that you've told me. So what else is there that I need to know?

**Michael... When you set the formation last year, you set it with the Gate of Grace and the Tree of Life. The model for the Tree of Life formation that you sat in before is the Tree of Life in the physical world. When you gather this time you will enter the Tree of Life through the Da-ath and enter the Spiritual Tree of Life.**

**You will find this to be much different than the physical tree. In the physical tree you move down and in the spiritual tree you move up. For this you will need to train nine Masters that will serve as gatekeepers for each place in the spiritual Tree of Life. I will teach you how to train these masters. I will visit you over the next few months and teach you, for there is much you should know. Our time is done for now we will speak again soon. Until then, be at peace and teach only love.**

As Michael finished speaking, he began to fade back into the ball of light from where he came. Now I have a lot to think about from this visit and I hope it is written so other people can understand it too. I'm lucky because when I am visiting with Michael, I am able to see and understand exactly what he is saying. I hope that everyone reading this visit will have a clear understanding of what Michael had to say.

**Along with signing up for the Dallas Conference in 2018 ([sign up link](#)), here are the other two things Michael recommended we do:**

### **The Shekinah (the Holy Spirit) Blessing for the Home**

Although there are many processes for this Blessing, we will be using this version because it serves our purposes best. These are the instructions as the Angel Michael has given them to me.

We will be doing this on Saturday after sundown in keeping with Hebrew tradition. This blessing is used to bring good fortune, health, as well as adding an extra 10 years to one's lifespan. Our purpose in using this is to prepare ourselves by raising our vibration with the Blessing of the Shekinah in our homes. Michael and I understand that doing this every Saturday may be a problem for some. If so, then do it twice a month. If that is too much, then do it at least once a month between now and the time we meet at the next Conference.

#### **These are the things you will need.**

You can find these items on the website store here <http://www.beatpeace.net>

A charcoal burner with self-lighting charcoal and a 2ml bottle of the **I Am oil**.

**The sacred ancient lamp** holder and one votive candle. *Two stick candles may be substituted.*

**One Shekinah flame and one Metatron flame.**

**The Shekinah fork and the Metatron fork**

One 2ml **Shekinah oil**.

One white hand towel or cloth large enough to place on your head and cover your eyes.

Two loaves of bread, olive oil or butter and some grated Parmesan cheese.

*French or Italian bread is suggested; however for smaller groups, use the loaves of bread as you would use to make hero sandwiches.. In my case I live alone, so I will use 2 dinner rolls. God and Shekinah are very understanding.*

### **Let's get started.**

You will need to set a table with the things I have mentioned.

Clear off a table and place the incense burner to the right of the table. Take a small piece of the self-lighting charcoal and put a drop of the **IAM oil** on it. Say the Seven Names of God as you light the charcoal. This will clear and clean the space.

The names are:

**Sri Rom, Elohim, Buddha, Yahweh, Ahura Mazda, Allah, El Shaddai**

Set the **oil lamp** and 2 votive candles on the table. This represents the masculine and feminine and aspects of God.

In the center of the two candles, place the **Shekinah violet flame** and ring the Shekinah fork. (If you have one.)

Place the **Metatron flame** about 8 inches in front of the **Shekinah flame** away from you and ring the **Metatron fork**.

Place the bread and olive oil or butter to the left of the table.

Place a drop of **Shekinah oil** on your crown and on others participating in the process with you. As you place the oil say:

**Yad Hey Shekinah.**

The candles are to be lit by the woman of the household. The tradition is that she covers her head with a scarf first. If a woman is not available to do the lighting, a man with his head uncovered will be fine.

After lighting, she waves both her hands over the candles symbolically pulling the light and the smoke in towards her face, welcoming in the Sabbath. Then she covers her eyes, so as not to see the candles before reciting the blessing, and recites the blessing below:

**May the Shekinah bless and keep us enfolded in her compassion and unconditional love for all time. Om Shekinah Om, Om Shekinah Om. Amen.**

The hands are then removed from the eyes, and she looks at the candles, completing the ritual of lighting the candles.

Then she will say:

***Dear Heavenly Father, Blessed and praised are you Shekinah, The Queen of all of the Heavens and of all of the Earth, you who sanctified us by the Holy words of God, and you who commanded us to light the Sabbath lights. All praise and glory only unto you, the only Holy One. Amen and Amen***

The Sabbath table should be set with at least two candles, representing the dual Commandments to remember. In observation of the Sabbath, at least two loaves of any uncut bread, like a French bread are used. This bread, called challah loaves are warmed and then sliced to enjoy during the evening. The bread slices are dipped in a type of a marinade, a combination of Parmesan cheese mixed with olive oil. Pour out a small pile of the Parmesan cheese onto a small plate and then cover it with some virgin olive oil and simply mix the two together with a fork.

Each person dips their warmed bread slices into this marinade for a delightful taste. Should you try this marinade and find it not to your liking, you can simply substitute it with butter applied to the warm bread. The loaves represent the dual portion of manna that God provided for the Israelites in preparation for the Sabbath in the desert. The loaves should be uncut and heated at first, then covered with a towel or napkin to keep them warm.

Before a bite of food enters your mouth, say this grace before eating.  
**As a child of God I bless the food that it enrich my body and nourish my soul. Amen.)**

This is a call for The Shekinah (the Holy Spirit) to come and spend the evening with you and your family. When She comes, you will experience your home filled with what is called "joyful peace." Your house being filled with peace and "coziness" is your reward for invoking this blessing.

According to tradition, the Sabbath starts on Friday Night at sundown but it can be done on any other night of the week. Saturday evening was picked because it works for most people. The Shekinah will come whenever She is politely and formally invited. You honor Her and She will honor you.

## **Novus Invicta Process**

**Begin sometime after dark on Dec. 22nd.**

Here is what we are going to be doing:

**Step 1** Set up your **Gate of Grace** in advance

**Step 2** After your **Gate of Grace** is set up, then set up the Tabernacle using the instructions that came with your **Tabernacle stone set**. (If you have tabernacle stone set)

**Step 3** With you in the center, place the **Shekinah flame** (if you have one) between you and the smoke crystal stone in the North. If you also have a **Metatron flame**, place it between you and the **quartz crystals** at the entrance of the Tabernacle in the south. In other words, place the Shekinah flame in front of you and the Metatron behind you. When you have done this, place a drop of the **Songs Of Songs** oil on your throat so your voice will be as a song. *(OK if you do not have this oil)*

**Step 4** Take one drop of the **IAM oil** and place it on a piece of charcoal and light it. (if you have not been Gathered yet you will not have this oil. You may however use the **Holy of Holies oil**. Step back outside of the entrance facing the Gate of Grace and say:

**This is said to make something Holy. Holy, Holy, Holy, Holy, Holy, Holy, O Lord, our God, Lord of hosts O Lord, our God Lord of hosts Who was and Who is and Who is to come, Who was and Who is and Who is to come.**

**Step 5** Once you have said this, each Master will light the votive candle in their lamp as a symbol of their Divine light and enter the Tabernacle. With everyone facing the entrance, say the Seven Names of God:

**Shriram, Elohim, Buddha, Yahweh, Ahura Mazda, Allah, El Shaddai** and ring the tuning fork for each name. DO NOT SEAL THE ENTRANCE (nothing further needs to be done.)

**Step 6** Start singing 9 times:  
**I am, you are, we are one,**

**Step 7** When you have finished with the song, each person will place a drop of the sacred oil of **Shri Rom** on their crown. **Elohim** on your third eye. **Buddha** on your right temple. **Yahweh** on left temple. **Ahura Mazda** under and behind your right ear. **Allah** is placed under and behind your left ear and the oil of **El Shaddai** is placed on the neck above the place where two collarbones come together.

Sing the seven names of God 9 times:

**Shriram, Elohim, Buddha, Yahweh, Ahura Mazda, Allah, El Shaddai**

**Step 8** Place a drop of the **Festival of Light** oil on your heart.

**Step 9** Place a drop of **the Novus Invicta** oil on your third eye.

**Step 10** Place the sacred oil of the **Three Kings** on your crown and say:

**As a child of God I have attuned my vibrations to receive the gifts of the Three Kings. I have anointed my heart to the vibrations of the Birth of the Light. I reclaim my Divine kingship as a child of God and place my crown on my head.**

Imagine you take from your heart a crown and place it on their own head and say,  
**As it is said, it is done.**

**Step 11** Take a drop of the **Novus Invicta oil** and a drop of the **Festival of Light** oil and place them on a piece of charcoal. Burn the charcoal and as the smoke rises, say the Seven Names of God:

**Shriram, Elohim, Buddha, Yahweh, Ahura Mazda, Allah, El Shaddai.**

Ring the tuning forks for the Names of God in order (if you have them.)

**Step 12** When you have finished, face the entrance of the tabernacle and say:  
**As a child of God that wears the Crown of Light I send the Light of Wisdom, Compassion and Love to bring harmony to the world.**

After you have said this, take the lamp with the votive candle and blow the light of the candle out through the entrance of the tabernacle. The light you have sent out will become one with the rays of the rising sun and shine on the world.

Say:

**It is done.**

**I know many of you do not have all these items listed here, so let me say this, God is very understanding, so just do the best you can for the process.** Many of you have oils that you have gotten over the years. You may use the sacred oils for each of the steps that you think or feel would best serve the part of the process.
